## Executive summary

### **D2.5**

This deliverables outlines the UNITY ethics framework which should be used to support all activities in the project that may require ethical approval. It summarises the structure of the ethics committee, the submission and approval process of any ethical issues and requirements that may arise over the duration of the project, and the ethical guiding principles for partners of the project. The appendices provide a number of related ethics forms which can be used as working documents in order to obtain the necessary ethical approval for activities carried out during the project.

### **D2.6**

This deliverable contains copies of all the data protection certification from each partner.
